GROHE BATHROOM & KITCHEN

2020

GROHE TECHNOLOGY

GROHE delivers its high-quality fixtures to customers around the world. As an expert in our field, we have set the benchmarks by investing in the quality of our products. Today, GROHE technology is second to none.

GROHE SILKMOVE

Smoothest handling for effortless precision and ultimate comfort for a lifetime.

GROHE SILKMOVE ES

The intelligent combination of energy saving and effortless water control.

GROHE FEATHERCONTROL

Perfect performance using precise, finger tip control.

GROHE STARLIGHT

Made-to-last surfaces ranging from precious matt to shiny like a diamond.

GROHE ECOJOY

Save precious resources and enjoy 100 % water comfort.

GROHE ZERO

Isolated inner water ways – lead and nickel free.

GROHE TURBOSTAT

Always the right temperature, for utmost convenience and safety.

GROHE COOLTOUCH

No scalding on hot surfaces thanks to 100 % GROHE CoolTouch.

GROHE DREAMSPRAY

Innovative quality showers for luxurious revitalisation and wellbeing.

GROHE QUICKFIX

Faster, easier and hassle-free, GROHE QuickFix cuts installation time by up to 40 %.

GROHE WHISPER

Innovative water technology delivering whisper-quiet acoustics.

GROHE 5 YEAR MANUFACTURER'S WARRANTY

GROHE products are designed to be both visionary and innovative with quality always guaranteed. Purchasing GROHE products means your investment is perfectly balanced in terms of quality, technology and design with sustainable production. High quality materials and the latest manufacturing methods combine with market-leading technologies to ensure reliable performance for many years. This is reflected in our five-year warranty on all products that are manufactured under the brand. Our focus on providing excellence and peace of mind means should your product within the guarantee period require a repair or replacement, you can rely on GROHE to cover all parts and labour.

QUALITY

From the first design sketch to the final product to after-sales services: Our customers can rely on our Made in Germany sense of perfectionism.

"No.1 most trusted brand in the sanitary industry" – Wirtschaftswoche, 2017

TECHNOLOGY

We constantly drive innovation to enrich your everyday water experience, delivering smart solutions on the path of the digitization of water.

"Top 50 companies to change the world" – Fortune Magazine, 2017

DESIGN

Our highly awarded design DNA's recipe for success is simple: Merging the contemporary and the timeless into products that feel like they were designed just for you.

Over 400 design awards won since 2003

SUSTAINABILITY

Water is our passion. We care about every drop and our CSR commitment goes even beyond one element alone: We strive to protect all of our planet's resources for future generations.

CSR Award winner of the German Government, 2017

MADE IN GERMANY

A PASSION FOR QUALITY. PRECISION CRAFTED TO THE HIGHEST STANDARDS.

Precision is synonymous with the GROHE brand. Our “Made in Germany” seal of exceptional quality has always characterised our work. We believe that this is in large part because our award-winning designer and development teams are all based in Germany, home to the highest quality products in the world. We are proud of upholding this German tradition and we guarantee our customers consistently superior manufacturing – down to the smallest detail. GROHE also delivers top quality product development. At our facility in Hemer, in the Sauerland region, our engineers and designers work hand in hand to refine our innovative ideas. We hold all our facilities in Germany, Portugal and Thailand to the same GROHE quality promise and high manufacturing standards. We live by our global standard of perfection.

BEFORE A DRIP
BECOMES A FLOOD.

DETECT TO TAKE CARE WITH GROHE SENSE.

YOU MIGHT THINK
IT CANNOT HAPPEN TO YOU.

BUT THE FACT IS THAT
**EVERY 2ND FAMILY HAS
EXPERIENCED WATER DAMAGE**
AT LEAST ONCE.

THE ALARMING FACTS ABOUT WATER DAMAGE: THE NO.1 PROBLEM WITHIN THE HOME

54 %

54 % of households have experienced mains-related water damage.¹

€ 2.297

In Europe, the average cost of repairing water damage is € 2.297.¹ 28 % of households are not even reimbursed at all. And those who are, only get 61 % of the total cost reimbursed.

65 %

65 % of all cases were related to pipes.²

**1.1
million**

In 2015 in Germany alone, there were 1.1 million cases of reported water damage to private homes.⁴

93 %

In 93 % of cases, water damage could have been prevented.³

24 hours

After just 24 hours mould can start to build up due to humidity, causing respiratory problems, asthma and allergies.⁵

GROHE SENSE AND GROHE SENSE GUARD: **THE SECURITY TEAM** FOR WATER SAFETY IN YOUR HOME.

DETECTS LEAKS
ON THE FLOOR

SENSES
HUMIDITY

SENSES TEMPERATURE
AND DETECTS FROST RISK

DETECTS BURST PIPES*
AND STOPS WATER
FLOW AUTOMATICALLY

SENSES WATER
PRESSURE,
TEMPERATURE
AND FLOW

CONNECTION

WATER ON/OFF

DETECTS FROST RISK
AND MICRO LEAKS**

TRACKS
CONSUMPTION

* GROHE defines a pipe burst as a complete hole or a crack in the downstream piping system, resulting in unintended disposal of water with close to maximal flow rate. Burst pipes detection depends on the general water usage profile, therefore time-lag to shut-off can vary significantly. During that time water might be disposed. Achieve higher detection speed by combining the installation with GROHE Sense on critical locations.

** A micro leak test is conducted once every 24 hours. Pipe material, volume and other piping system characteristics can impact the result. Micro leak detection is limited to the cold water system in most cases. Combine with GROHE Sense to monitor potential humidity increase over time.

GROHE SENSE

THE SMART WATER SENSOR THAT DETECTS WATER IN YOUR HOME

GROHE Sense monitors temperature and humidity levels and gives warning if the levels become too high or too low.

When water touches the base of the sensor due to leaks or flooding, GROHE Sense alerts you automatically...

...so you have time to react.

GROHE SENSE GUARD

THE SMART WATER CONTROLLER THAT DETECTS LEAKS* AND AUTOMATICALLY SHUTS OFF THE WATER SUPPLY

GROHE Sense Guard measures water flow, pressure and temperature.

When a pipe bursts*,...

* Burst pipes detection depends on the general water usage profile, therefore time-lag to shut-off can vary significantly. During that time water might be disposed. Achieve higher detection speed by combining the installation with GROHE Sense on critical locations.

...GROHE Sense Guard shuts off the water supply automatically and alerts you on your smartphone that is connected to the internet.

WATER OFF

GROHE SENSE PROVIDES WATER SECURITY FOR YOUR ENTIRE HOME 24/7 **DETECT, ALERT AND STOP!**

GROHE Sense is an easily installed, Wi-Fi connected water security system for your entire house.

The GROHE Sense sensors check for leaks, monitor areas where water damage could occur, check temperature and humidity and alert you automatically if something goes wrong. But more than that: GROHE Sense Guard tracks water consumption, detects micro leaks and in case of a burst pipe, it even automatically shuts off the water supply.

GROHE Sense app – water management on the go

Know what is going on in your house anytime
and stay in control with the GROHE Sense app
on your smartphone.

INSTALL GROHE SENSE YOURSELF IN AN INSTANT

It's a simple matter to install GROHE Sense devices all round your house – in just 10 minutes.

Simply download the app and register, place the sensor in the chosen location, insert the batteries, and connect them to the Wi-Fi network using the GROHE Sense app.

RELAX – AND LET THE GROHE INSTALLER DO THE WORK

To install GROHE Sense Guard we recommend that you use the services of a professional installer.

To find your nearest GROHE installer go to find-installer.grohe.com

GROHE SENSE AND GROHE SENSE GUARD: ALL THE BENEFITS AT A GLANCE

		GROHE SENSE	GROHE SENSE GUARD
Detects flooding	Emits a pulsating red light and a beeping sound if flooding is detected and alerts you instantly via smartphone.		
Monitors humidity	Checks room humidity level and alerts based on your personal thresholds.		
Monitors room temperature and detects frost risk	Checks temperature and if the room temperature is above or below your thresholds sends out an alert. If the temperature drops below 3 °C, a frost risk alert is sent out.*		
Easily installed	Set up GROHE Sense quickly and easily throughout the home – in just 10 minutes.		
Sends alerts when problems are detected	Situation-dependent alerts sent straight to your smartphone.		
GROHE Sense app	One app for your personal water management: GROHE Sense app forms the centerpiece of GROHE Sense water security system.		
Detects burst pipes**	If a pipe break is detected, shuts off automatically the water supply and sends an alert to your smartphone.		
Detects micro leaks*** and dripping faucets	Warning on your smartphone on detected micro leaks on your cold water system.		
Monitors water pressure and flow	Monitors water pressure and warns you if it becomes critical. In addition, it allows for detection of unusual water consumption.****		
Monitors water temperature and detects frost risk	Warns you if the incoming water temperature drops below 3 °C.		
Tracks water consumption*****	Makes your water consumption transparent and helps to keep water bills under control.		

* not to be used as fire detection

** Burst pipes detection depends on the general water usage profile, therefore time-lag to shut-off can vary significantly. During that time water might be disposed. Achieve higher detection speed by combining the installation with GROHE Sense on critical locations.

*** A micro leak test is conducted once every 24 hours. Pipe material, volume and other piping system characteristics can impact the result. Micro leak detection is limited to the cold water system in most cases. Combine with GROHE Sense to monitor potential humidity increase over time.

**** Detection speed depending on the water usage profile in the house. Achieve higher detection speed by combining the installation with GROHE Sense on critical locations.

GROHE START FLOW

The flowing transition from spout to body to lever brings movement and vitality to Start Flow. Unfaltering in its execution, this transition unites these three components in a refreshing way. As with all GROHE single-lever mixers, the wide operating angle of the lever handle is perfectly engineered for optimal user comfort across the collection of basin, bath and bidet faucets and shower mixers.

GROHE THERMOSTATS

We've all been there before. You've just stepped into the shower when someone else in the house either turns on a faucet or flushes the toilet suddenly the temperature of your shower plummets or becomes scalding hot – leaving you with soap in your eyes as you try to manually adjust the temperature back to a comfortable level. Install a GROHE thermostat and you can be sure of a safe and enjoyable showering experience every time.

PRECISION CONTROL FOR A RELAXED SHOWERING EXPERIENCE.

As our benchmark when constructing GROHE thermostats we used the most sensitive thermometer around – your skin. The revolutionary thermostats in our Precision Thermostat range ensure that hot and cold water will touch your skin in exactly the proportions you desire. GROHE TurboStat is a revolutionary technical feature – it provides the correct shower temperature in seconds and keeps it constant. The many elegant design features in these miniature technological marvels are wonderfully innovative.

GROHE TURBOSTAT

GROHE TurboStat technology lies at the heart of our thermostat. The thermo-element's unrivaled sensitivity means it delivers water at the desired temperature within a fraction of a second – and keeps it constant for the duration of your shower. No more time and water wasted getting the temperature right. And if the cold water supply fails, it reacts instantly: hot water will shut off automatically to avoid the risk of scalding.

GROHE COOLTOUCH

GROHE's CoolTouch technology ensures that the entire outer surface never exceeds your preferred shower temperature. By designing our thermostats to include an innovative cooling channel, we have created a barrier between the hot water and the chrome surface – so it's never too hot to handle. This safety measure is especially useful for children, who can not always judge whether something they touch is dangerously hot.

GROHE CoolTouch safety
housing with water cooling

USER-FRIENDLY FEATURES

With GROHE TurboStat and GROHE CoolTouch, our thermostats offer optimal comfort, highest safety and water saving technology. Our thermostats also feature a SafeStop button, to prevent children from turning up the temperature and scalding themselves, and an EcoButton to reduce water usage by up to 50 %. An optional temperature limiter at 43 °C is always included. Our EasyLogic controls are intuitive to use and cater to the entire family, whatever their height, while the AquaDimmer Eco comes with integrated EcoButton and allows you to turn the water on and off, adjust the flow rate and divert between two water outlets, e.g. hand shower and bath spout.

SAFESTOP

Safety lock protects against scalding.

SAFESTOP PLUS

Optional temperature limiter at 43 °C included.

ECO BUTTON

Reduces water usage on thermostats by up to 50 %.

AQUADIMMER ECO

Divertor combined with volume control. Reduces water usage up to 50 %.

METALGRIP

Ergonomic metal handle.

EASYLOGIC

Clear markings for easy handling.

GROHE PRECISION TREND

GROHE CoolTouch, ultimate comfort. Enjoy taking a refreshing shower more than ever before. The GROHE Precision Trend with contemporary design offers the new GROHE CoolTouch compact body, ergonomically shaped metal handles, GROHE TurboStat technology and water-saving eco functions.

Offering optimal ergonomics with subtle hidden wings at the back of the handles and the highest safety standards in its market segment, it's the ideal thermostat for every kind of user, from children to seniors.

THE WORLD OF GROHE SHOWERS

GROHE showers offer you a dream-like showering experience. For maximum flexibility choose a shower that provides you with the right choice of spray patterns. GROHE hand showers are sophisticated pieces of engineering.

GROHE DreamSpray technology is the winning formula of quality and innovation creating optimal water distribution for an unparalleled showering experience. It is now joined by GROHE's latest innovation – the DripStop feature – that adds to user comfort by minimizing after-dripping once the shower has been shut off.

All our shower rails with adjustable upper bracket can be installed on existing holes so installation becomes easy.

GROHE DREAMSPRAY

Innovative quality showers for luxurious revitalisation and wellbeing. GROHE's DreamSpray technology is at the heart of every GROHE shower. Boasting the absolute finest quality, it incorporates innovation that helps you to enjoy an unparalleled showering experience.

GROHE SHOWERS THE SPRAYS

Enjoy variety – rejuvenation or relaxation? Our unique design distributes the same amount of water to each and every nozzle, resulting in an even spray. So whatever pattern suits your mood – Normal, Jet, Rain or Massage – you're guaranteed that it will be an all-over exhilarating experience.

GROHE PureRain Spray, GROHE Bokoma Spray and GROHE Rain O², are just the latest examples of GROHE DreamSpray technological innovation.

NORMAL SPRAY

A great all-encompassing spray pattern with a refreshing and relaxing effect. Its universal appeal makes it a great all-rounder.

RAIN SPRAY

Wide and luxurious – a soft, delicate pattern to soothe the skin. Mimicking warm summer rain, the spray provides a full and even coverage.

SMARTRAIN SPRAY

All the features and benefits of our authentic Rain Spray but with a reduced flow. A smart pattern that uses less water to deliver full showering enjoyment.

GROHE RAIN O² SPRAY

A soft, smooth spray based on our original Rain Spray. Water drops are infused with air for a wide and fuller spray.

JET SPRAY

A focussed circular spray, which delivers a refreshing burst of water. Ideal for stimulating the skin or simply cleaning the bathtub or shower.

MASSAGE SPRAY

A pulsating spray pattern for a stimulating massage. Gives a unique and invigorating all-over massage.

GROHE PURERAIN SPRAY

The new and improved Rain Spray with larger and softer droplets for a more luxurious showering experience.*

GROHE BOKOMA SPRAY

Eight dynamic spray nozzles create a 'breathing' effect, recreating the tension-relieving sensation of a fingertip massage.

GROHE VITALIO JOY SYSTEM

The Vitalio Joy system is a combination of modern, contemporary design and functional excellence. The coordinated hand and head showers enhance the visual appeal and celebrate water.

- All-in-one solution fitting all installation requirements: from thermostat to one-hand mixer or diverter
- 210 mm – 310 mm large metal head showers or a 260 mm wide head shower with three spray zones to choose from: with just the turn of a knob you control the spray from a powerful Jet spray for rinsing out shampoo to a Rain Spray that relaxes you after a long day at work
- 110 mm hand shower with 3 sprays, including Massage
- 45° swiveable shower arm and an inner water guide to protect the outer surface

GROHE NOW ENTERS THE WORLD OF CERAMICS

CREATING PERFECTLY COORDINATED BATHROOMS

MADE TO MATCH IN FORM AND FUNCTION

Finding a perfect match isn't easy. That's also true for the bathroom. Because our ceramics come with a selection of recommended combinations that fit our faucets, showers and sanitary systems they complement one other in both design and technology: the overwhelming variety of options is distilled into one simple choice. Save yourself the trial and error and make only one easy choice: for a perfect match.

TWO UNIQUE CERAMIC DESIGN LINES

Create pure unison in your bathroom: with GROHE Ceramics. If you choose one of our perfect matches, you can be sure that you are composing a coherent and perfectly designed style.

GROHE SANITARY SYSTEMS

Solido, Renoblock and WC fittings. Ecologically sensible: GROHE fittings use water very sparingly. Economically convincing: a low water consumption means high efficiency.

Smart use of space is key to success in contemporary bathroom planning. To make sure the new bathroom is fit for the future too, it should be designed around a full set of water-saving fittings which emphasise its sustainable character and long-term functionality.

Be convinced by the water-saving WC fittings as well as the clever installation systems, such as Solido and Renoblock, for optimum design and rapid, clean installation.

And in addition to all that GROHE offers a manufacturer's five-year warranty.

SOLUTIONS FOR EVERY REQUIREMENT

GROHE invests heavily in the development of new technology on an ongoing basis so that we can always offer our customers the best solution for their planning, installation and operating requirements.

The result is that many innovative technologies underpin the high standards of quality, performance and sustainability of GROHE faucets, showers and sanitary systems. Special conditions require extraordinary solutions. GROHE has defined further standards that demonstrate the exceptional quality, low maintenance requirements and user-friendly design of products that are easy to clean and suitable for use in professional settings.

These unique features allow architects, planners and operators as well as the retail and trade sectors to immediately recognise the many long-term economic benefits of professionals using GROHE products.

SPAREFLUSH

Delivers an additional safety flush volume of 3 l for added flushing power.

SAFETY

Guarantees a high level of safety and resilience with external test certificates.

EASYCONNECT

Simplifies the installation of WC flushing mechanisms with pneumatic connections to the flush plate.

TOOLFREE

For simplified installation of components without the need for tools.

LONGLIFE BATTERY

Ensures a long life thanks to unique low-energy electronics.

VARIOPORT

Provides a range of water connection options including left, right, rear as well as top for cistern GD2.

SEAT & COVER SOFT CLOSE

Both seat and lid have a gentle and quiet soft-closing mechanism.

QUICK RELEASE SEAT

A special hinge allows easy removal of the toilet seat for cleaning.

GROHE **SOLIDO BUNDLES**

Our Solido WC bundles consist of all-inclusive sets with Solido frame, wall brackets, flush plate, WC ceramic and noise protection set in one packaging.

There is a variety of designs, including organic forms with soft edges and minimalistic forms with square edges. As all the components are included in the sets, they are “ready to install” and there is one installation manual for all products.

This makes the system very easy to install. The WCs conform to high quality standards. They are made of vitreous China and the Duroplast seats have a soft close feature as well as a quick release function. All DIN norms are fulfilled and a 5 year warranty is given for the complete sets.

GROHE SOLIDO

GROHE SOLIDO FOR FAST AND SIMPLE INSTALLATION.

The functional features make Solido a first class installation system. Discharge valve and actuation are connected by one pneumatic hose only, installation is fast and safe, too – with no risk of confusion.

GROHE QuickFix provides for flexible and time-saving installation thanks to quick height adjustment, 360° swivelling wall mounting and the discharge valve AV1 and revision shaft.

Individual and fast:

On-the-wall installation, in or in front of brickwork or in front of studded wall partitions.

GROHE RENOBLOCK

CLEAR ADVANTAGES FOR INSTALLATION AND USAGE.

A modern modular system which you can recognise everywhere by its knobby grey EPS housing. At the same time, it has many practical functions: it is a rendering base, improves noise protection and naturally also protects the fitting inside. With Renoblock, walling in has taken the place of the difficult lining with masonry which used to be the norm.

SIMPLE INSTALLATION.

Installation with Renoblock saves time and space. Renoblock thus lets you plan and implement interesting floor-plan solutions with optimum space distribution.

38 780 001
Renoblock WC 1,10 m

GROHE RAPID SLX

FOR ALL INSTALLATION NEEDS

Not all bathrooms are the same and a certain degree of flexibility is required when it comes to installing fixed bathroom features. Thankfully, the Rapid SLX installation system comes with a range of possibilities to ensure you get exactly the setup you require, ultimately saving you time and money and ensuring you can deliver complete customer satisfaction from the start.

GROHE FLUSH PLATES

Whatever your preferred interior style, GROHE flush plates are an integral element of a coordinated bathroom – allowing you to create a cohesive design story.

Available in GROHE StarLight chrome, our discrete plates complement our faucet collection and can be fixed vertically or horizontally. With the state-of-the-art flushing technology from GROHE – the start/stop systems and dual flush – water can be saved in a sensible way.

Combine the plates with all our systems – the fast & easy to install GROHE Solido or Rapid SLX installation system!

GROHE FRESH

GROHE Fresh brings a new level of convenience to the bathroom. It allows you to have the best of both worlds – the clean lines achieved from choosing a concealed cistern and the continuous hygiene and cleanliness associated with cistern blocks. This of course is a retrofit set for all GROHE sanitary systems.

38 967 000
GROHE Fresh conversion kit

Clean freshness at the push of a button.

1 Open actuation of the cistern with a fingertip.

2 Choose any odour block.

3 Slide in the cleaning tab.

4 Close and flush!

GROHE SURFACE MOUNTED CISTERNS AND FLUSHING VALVES

Surface-mounted cisterns are a simple, low-cost renovation solution. They can be installed quickly on site.

Operation is also easy and effective. When actuated once, the full flow volume flows. With the second actuation, flushing is ended prematurely.

Flushing valves have the advantage of always being ready for flushing. For each actuation, the flow volume is ready immediately.

GROHE SERVICE VALVES

PERFECT CONNECTIONS.

Connecting wall mountings to fittings in bathrooms, kitchens, cellar rooms and various wet areas, service valves have an important function and are often required to last for decades.

Stringent continuous-service and noise-control tests as well as surface-quality tests bear witness to the high durability and long service life of our products. By performing these intensive tests, GROHE ensures that service valves withstand stresses without compromise and are always ready to use.

GROHE IN YOUR KITCHEN

Get the most out of your busy kitchen with GROHE's kitchen faucets and sinks. Created to offer a huge range of practical features to make any kitchen easier, safer and more enjoyable to use, you'll bound to find the perfect solution. With a variety of modern designs, plus versatile dimension and installation options, GROHE kitchen faucets and sinks offer great value and functionality that will enhance your life every day.

HANDS ON FEATURES

Accommodating your every wish and desire, GROHE kitchen faucets and sinks include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

OPENWATERHEATER

The perfect flow in combination with open water heaters.

EASYEXCHANGE

The aerator is easy to install and de-install using just a coin.

EASYDOCK

Guaranteed easy retraction and smooth docking for your pull-out spray head, every time.

STOPVALVE

Includes a dishwasher shut-off valve on the faucet body.

SPEEDCLEAN

Remove limescale with a single wipe.

COMFORTHEIGHT

Height of the spout allows easy filling of large pots.

EASYTOUCH

Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

FORWARD ROTATING LEVER

Forward rotating lever prevents the lever hitting the backsplash.

PULL-OUT MOUSSEUR

Increases the operating radius of your faucet.

PULL-OUT DUAL SPRAY

Increases operating radius of the faucet and offers easy switching between mousseur and the spray.

PROFESSIONAL-SPRAY

Features a 360° spring arm and easy switching between the spray and mousseur.

GROHFLEXX

With flexible, hygienic GrohFlexx kitchen santoprene hose.

SWIVELSTOP

Limited turn angle prevents flooding.

Integrated magnet for seamless docking of the spray head.

GROHE

BLUE PURE FILTER FAUCETS

Add great taste to your kitchen, effortlessly, with a GROHE Pure Blue Filter faucet. GROHE Blue Filter faucet technology turns tap water into great-tasting filtered drinking water, removing chlorine and other impurities that can impair taste. Separate internal waterways keep filtered and unfiltered water separate at all times. The GROHE filter fits easily under your sink, and the faucet still offers all the usual functionality of a standard kitchen faucet. Put pure, refreshing, filtered water at the heart of your kitchen with a GROHE Blue Pure faucet.

GROHE SAIL CUBE

Featuring a crisp, linear silhouette, Sail Cube introduces true square design to the cosmopolitan kitchen. Its strong lines and solid, architectural shape is perfect for modern kitchens where design is at the forefront. Sail Cube also benefits from our leading technologies: GROHE SilkMove and GROHE StarLight.

GROHE FLAIR TOUCH

Put the sweeping, sensual power of water at the center of your kitchen with the Flair Touch. Flair's modern and minimal design will never go out of fashion and sits perfectly in any contemporary kitchen. With the addition of GROHE's EasyTouch technology, you can also control the mixed water flow with just one touch.

From a model with a pull-out mousseur to one with a pull-out spray, GROHE Flair Touch puts the choice in your hands.

GROHE FLAIR

Modern yet timeless, beautiful yet functional, Flair is available in a choice of three graphic spout shapes – the C-shape, L-shape and U-shape. The option of a pull-out dual spray or an extractable mousseur guarantees an increased operating radius and offers different sprays. Thanks to GROHE SilkMove technology these faucets will also provide you with years of superb ease of use while GROHE StarLight ensures a longlasting, immaculate finish.

GROHE FEEL

Feel combines stylish minimalist design with superior ergonomics to reflect the core values of the cosmopolitan design. Its purist beauty is highlighted by the high-gloss GROHE StarLight chrome finish which repels dirt and prevents tarnishing. GROHE SilkMove technology enables fingertip control of water flow and temperature. It is also available with a pull-out mousseur or an extractable dual spray which increase your operating radius and offer you different sprays.

Or treat your kitchen to an upgrade with the new Feel Professional spray faucet, putting premium, professional performance in your hands. Switch the pull-down head between a mousseur and powerful SpeedClean spray with ease – the intelligent Magnetic Docking system uses a powerful magnet to automatically dock the spray head when you are done. Thanks to its pared-back, slim design and height of just 510 mm, the new Feel Professional is also a great solution for installation on kitchen islands and under wall cupboard. Enjoyable to use, it's the ideal way to add enviable contemporary style to any busy kitchen.

GROHE START

Built to last, Start combines contemporary design with the latest technology and product features. A solid easy-to-use lever features GROHE SilkMove technology to enhance its functionality, while the graceful lines of the arched spout will add a touch of elegance to your sink. With a new pull-out dual spray, Start pull-out lets you tackle every task effortlessly. The pull-out spray gives greater reach and flexibility plus easy switching between two powerful spray options for maximum kitchen control. Equipped with the GROHE EasyDock mechanism it guarantees easy retraction and smooth docking of the spray head.

Start is available with either a low or high spout and benefits from our immaculate surface GROHE StarLight.

SMART DESIGN COMBINED WITH POWERFUL FEATURES

Take your kitchen to the next level with the Start pull-out kitchen faucet. Equipped with the basic features of Start and adding a functional pull-out dual spray, Start pull-out will help you do your daily kitchen tasks with just a tip of your finger. The pull-out dual spray gives you a greater operating radius of the faucet while offering easy switching between two sprays. The EasyDock mechanism guarantees easy retraction and smooth docking for your spray head, every time. Eurosmart pull-out comes with a shiny chrome surface or a matt SuperSteel finish to fit your kitchen perfectly.

**Pull-out dual spray**

Increases the operating radius of the faucet and offers easy switching between mousseur and the spray.

**SuperSteel finish**

Choose between a shiny chrome and a precious matt SuperSteel surface to fit your kitchen.

**EasyDock**

Thanks to the EasyDock mechanism, the spray automatically retracts back into starting position.

**Lead and nickel free: separated inner water ways**

Isolated inner water ways guarantee that the water has no contact with lead or nickel.

**GROHE cartridge with integrated temperature limiter**

Can be individually set to the desired maximum water temperature.

GROHE

KITCHEN SINK BUNDLES

Make any kitchen project perfect first time with GROHE's new sink bundles. Four stylish and sturdy sink designs are available, all made with AISI 304-18/10 stainless steel which is extremely resistant to rust and corrosion. Each is teamed with one of our kitchen faucets, guaranteeing best performance and design harmony. The four sinks all have spacious bowls with a minimum depth of 16 cm, and come with a host of useful features, including two pre-punched faucet holes (making each sink reversible) and a waste fitted for remote control operation.

Waste fitting with remote control

The automatic control for the waste fitting is part of the standard equipment supplied with each model. A very convenient accessory that saves you from wetting your hands when the bowl needs emptying.

Pre-punched faucet holes

The faucet area is already provided with two faucet holes making the sink reversible and giving you free choice of installation (left- or righthand installation). No extra tool is needed to create the faucet holes.

Stainless steel

Spacious bowls

Thanks to the pioneering manufacturing technology used, all the bowls in GROHE sinks provide a generous depth with a minimum of 16 cm depth, thus sizeable and practical for all washing operations.

Sturdy sinks – AISI 304

For every type of sink and price bracket, GROHE works with above-average steel thickness when compared to other manufacturers. As a result, also owing to our long experience and quality principles, GROHE is able to construct “sturdy” sinks with a unique design that are resistant to rust and corrosion.
