GROHE LONG-LIFE SHINE
Made-to-last surfaces ranging from precious matt to shiny like a diamond.

GROHE SILKMOVE
Smoothest handling for effortless precision and ultimate comfort for a lifetime.

GROHE SILKMOVE ES
The intelligent combination of energy saving and effortless water control.

GROHE LONG-LIFE
Comfortable handling for precision and control for a lifetime.

MOUSSEUR WITH COIN-SLOT
The aerator is easy to install and de-install using just a coin.

SPEEDCLEAN
Remove limescale with a single wipe.

WATER SAVING
Save precious resources and enjoy 100 % water comfort.

AQUAGUIDE
Variable spout end for adjustment of water flow.

COMFORT HEIGHT
Height of the spout allows easy filling of large pots.

FORWARD ROTATING LEVER
Forward rotating lever prevents the lever hitting the backsplash.

PREWINDOW
To open the window, just lift up the faucet and lay it flat on the surface.

SHUT-OFF VALVE
Includes a dishwasher shut-off valve on the faucet body.

90° SWIVEL RANGE LIMIT
Limited turn angle prevents flooding.

150° SWIVEL RANGE LIMIT
Limited turn angle prevents flooding.

PULL-OUT
Increases the operating radius of your faucet.

PROFESSIONAL-SPRAY
Features a 360° spring arm and easy switching between two spray types.

EASYDOCK
Guaranteed easy retraction and smooth docking for your pull-out spray head, every time.

EASYDOCK M
Integrated magnet for seamless docking of the spray head.

FOOT CONTROL
Just touch the bottom side of the cabinet with a gentle tap of your foot to turn the faucet ON and OFF (capacitive sensor).

EASYTOUCH
Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

ENHANCED WATER
Superior-quality water directly from the kitchen faucet – saving time, money and the environment.

2 SPRAY TYPES
Increases operating radius of the faucet and offers easy switching between mousseur or laminar and the spray.

3 SPRAY TYPES
Giving a variety of water flow options. Choose the spray that suits your need: Clean laminar spray, powerful shower spray or condensed Blade Spray.

LEAD AND NICKEL FREE INNER WATER WAYS
Lead and nickel free inner water ways – no contact of water with lead and nickel due to use of harmless material within the faucet.

GROHEFLEXX
With flexible, hygienic GroheFlexx kitchen santoprene hose.

GROHE WHISPER
Innovative water technology delivering whisper-quiet acoustics.

REAL STEEL
Made of solid stainless steel, a robust material with anti-bacterial properties.

TITANIUM INSIDE
All boilers in our GROHE Red collection are made from titanium.

CHILDLOCK
Integrated safety mechanism prevents unintentional opening by young children.

GROHE COOLTOUCH
No scalding on hot surfaces thanks to 100 % GROHE CoolTouch.

OPEN WATER HEATER
The perfect flow in combination with open water heaters.

HANDS ON FEATURES

Accommodating your every wish and desire, GROHE watersystems and kitchen faucets include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

PERFECT SOLUTIONS FOR YOUR KITCHEN

BY GROHE

01

WATERSYSTEMS

Water is the source of life, fresh, free-flowing and essential. Our range of watersystems offers a tailored drinking experience of purity and convenience that will turn water into a source of vitality and enjoyment in your home.

GROHE BLUE

PAGE 8

GROHE RED

PAGE 38

GROHE BLUE

Enjoy the benefits of fresh filtered water wherever you are. In the comprehensive GROHE Blue range you'll find models designed for every situation – get filtered, still or sparkling water on tap in your own kitchen or select a model ideal for office and professional use. Just need filtered water in your kitchen? Then our entry-level faucet is the perfect choice. All versions of GROHE Blue come with the same sleek modern design values, intuitive operation and convenience built in.

GROHE BLUE HOME

The superior solution for your private home with pull-out mousseur and GROHE Watersystems App control.

GROHE BLUE PROFESSIONAL

The excellence for offices & small / medium enterprises.

PAGE 26

GROHE BLUE PURE FILTER FAUCETS

The perfect choice for the entry level. Just perfectly filtered water.

PAGE 34

GROHE BLUE HOME

100 % TASTE STRAIGHT FROM THE TAP

Do you like your chilled drinking water still or sparkling? Somewhere in between? With GROHE Blue the choice is all yours. First the water is filtered to remove impurities. Then it is chilled to create that mountain-fresh taste. And when you turn on the faucet a simple twist of the handle lets you choose whether still, medium sparkling or sparkling water flows into your glass.

Fresh water tailored to your exact taste, flowing straight from the faucet – it's as easy as 1, 2, 3. While the right-hand lever on a GROHE Blue faucet mixes hot and cold water as normal, a handle

on the left serves the chilled and filtered water and controls how sparkling your drinking water is, from perfectly still to bursting with bubbles.

An LED indicator in the push button changes color to let you see your chosen carbonation level at a glance – still, medium sparkling or sparkling – as well as telling you when the filter capacity has fallen below 10 % and will soon need to be changed. The water temperature can also be set to your personal taste, individually regulated to between 5 °C and 10 °C.

RIGHT | 31 455 DC1 | GROHE Blue Home C-Spout

WITH PULL-OUT FUNCTION

Our GROHE Blue Home faucets come with a pull-out mousseur head for ultimate functionality and flexibility. Select from three contemporary faucet shapes with a pull-out head, each with a hygienic mousseur and two separate water ways, delivering both filtered and unfiltered water effortlessly.

Lead and nickel free

Pull-out mousseur

Hygienic mousseur with 2 outlets

FIND OUT THE WAYS IN WHICH GROHE BLUE BRINGS BENEFITS TO YOUR HOME:

Imagine drinking water fresh from a mountain spring – life-affirming, thirst-quenching, and absolutely pure. Now imagine the same vitality-giving, untainted water flowing directly from your own kitchen faucet. The GROHE Blue watersystem makes this a reality in your own home. It transforms ordinary tap water and filters it, leaving a taste as fresh and pure as nature intended.

Whatever your idea of perfect water refreshment – filtered, chilled, sparkling or all three – GROHE Blue brings it to you straight from the faucet.

TASTE

GROHE's filters remove impurities to give water a pure, fresh taste that even beats bottled water.

VITALITY & WELLNESS

Removing even small particles but leaving behind precious minerals, GROHE Blue makes it easy to embrace the well-being properties of water.

CONVENIENCE

No more carrying heavy bottled water home.

SUSTAINABILITY

Kinder to the environment, with less waste on packaging and processing compared to bottled water.

Separated inner water ways for unfiltered tap and filtered drinking water.

Spout, turnable by 150°

Hygienic mousseur with two outlets and optional pull-out

Forward rotating lever with knurled structure for better grip

Cartridge with GROHE SilkMove technology for normal tap water

**STILL, MEDIUM OR SPARKLING:
THE CHOICE IS ALL YOURS**

How sparkling do you like your water? It's all a matter of taste. GROHE Blue Home has a simple and intuitive mechanism that lets you carbonate your drinking water at the touch of a button. Deliciously cool filtered water, just the way that you – and all your family – like it.

Still waters run deep. If you prefer your water cool and still, nothing could be simpler: just push the top button. The LED lights up blue and your glass fills with pure refreshment.

Sparkling – but not too much? More of a medium sparkling? Coming right up. Press both buttons in sequence – the LED lights up turquoise – to produce a finely pearled stream of water.

Sparkling water, alive with bubbles. If that's your idea of thirst-quenching heaven, just press the lower button – the LED lights up green – for your perfect glass of water.

THE MAGIC IS IN THE FILTER

For our GROHE Blue system we have worked with BWT, Europe's leading filtered water professionals, to ensure that our system produces a convincing, refreshing drinking experience. Our standard high performance S-Size filter comes with every GROHE Blue Home starter set.

In addition, there are three other filters available.

If you live in a soft-water area, the **activated-carbon filter** is right for you. It improves the taste but leaves the carbonate level in the water untouched.

The **magnesium + zinc filter** adds up to 35 mg magnesium and up to 3 mg zinc to each liter of water, helping to support your mineral balance, while delivering better tasting tea and coffee.

Our high-performance **ultrasafe filter** is made for areas with bacteria contaminated tap water. It retains microplastic > 1 µm, 99,999 % of bacteria and up to 99,5 % of lead.

Scan to get more information about our filters. Visit shop.grohe.com

Tested and Certified by NSF International against NSF / ANSI Standard 42 for the reduction of chlorine, taste and odor.

GROHE BLUE PROFESSIONAL

TURN YOUR OFFICE SPACE INTO A BOTTLE-FREE ZONE

The unique GROHE Blue watersystem delivers fresh, great-tasting filtered water straight from your office kitchen faucet. It combines the modern

look of a designer faucet with a high-performance filter, cooler and carbonator – but can also be used as an ordinary kitchen faucet.

RIGHT | 31 323 002 | GROHE Blue Professional Duo C-Spout

BENEFITS AT A GLANCE

With the GROHE Blue watersystem your company can enjoy the benefits of filtered, chilled and sparkling water on tap. The GROHE Blue watersystem transforms ordinary tap water into filtered, fresh, perfect tasting drinking water, whenever you want it – 24 hours a day, 7 days a week.

TASTE & HYDRATION

GROHE's filters remove impurities to give water a pure, fresh taste that even beats bottled water.

COST & SPACE SAVING

GROHE Blue eliminates the cost and hassle of buying, transporting and storing bottled water. These savings will keep adding up, year after year.

COMFORT

Free and unlimited access to fresh and sparkling water will be valued by employees and increases motivation and productivity. Fast and easy preparation of cold and hot drinks provides more time for the essentials.

SUSTAINABILITY

GROHE Blue reduces the carbon footprint – no more use of plastic bottles, less waste in production and lower CO₂ emissions than for bottled drinking water.

100 °C HOT WATER STRAIGHT FROM THE TAP

Never wait for the kettle to boil again. With the innovative GROHE Red system you can fill anything, from a mug to a large pot, with kettle-hot water in an instant – and all direct from

your kitchen faucet. With GROHE Red you still have your standard kitchen mixer, but separate push buttons provide kettle-hot water on tap.

new

RIGHT | 30 083 KS1 | GROHE Red Duo C-Spout, L-Size boiler

TECHNOLOGY YOU CAN TRUST

Designed down to the last detail with a view to convenience, sustainability and safety, GROHE Red presents a range of intelligent and indispensable features.

SAFETY FIRST

Our first commitment is to your safety. That's why GROHE Red comes with a unique, failsafe child lock.

NO MORE WAITING

Kettle-hot water is always available at the push of a button, so waiting for the kettle or pot to boil is a thing of the past.

LESS WASTE

You only take the exact amount of hot water you need, so you save on water and energy consumption.

CLEAN, FRESH TASTE

Filtered water heated to 100 °C for an exceptional taste experience.

CLEAN YOUR WORKTOP

Filtered water heated to 100 °C. No need for the clutter of a kettle. GROHE Red fulfills all your water needs from a single faucet.

Spout, turnable by 150°

Separated inner water ways for normal tap and boiling water

Forward rotating lever with knurled structure for better grip

Touch buttons with ChildLock safety for boiling water

Cartridge with GROHE SilkMove technology for normal tap water

A SINGLE SIMPLE SOLUTION

TASTE THE DIFFERENCE

Use GROHE Red in combination with a GROHE Blue filter and get fresh just-filtered water served kettle-hot. Enjoy your tea and coffee with a great clean taste. The boiler where the water is heated is made of titanium, which does not impart any metallic taste to the water. It is also highly resistant to corrosion and limescale build-up, meaning a consistently great taste over the lifetime of the faucet.

DECLUTTER YOUR KITCHEN

What busy kitchen doesn't need more worktop space? With GROHE Red you can clear the clutter of your kettle from the worktop and get both hot and cold mixed water plus kettle-hot water, all from the same faucet. The system's compact boiler is designed to fit discreetly below the sink, leaving you more counter space and a cleaner, clearer-looking kitchen.

SAVE PRECIOUS TIME

Never wait for a pot of boiling water or a much-needed cup of tea again. We all lead busy lives, and time spent waiting for water to boil all adds to the time spent on chores rather than relaxing. Whether it's cooking pasta, blanching vegetables or preparing a baby's bottle, GROHE Red cuts out the waiting time with kettle-hot water ready for you, the instant that you want it.

SAVE WATER, SAVE ENERGY

Think for a moment about how often you boil and reboil the kettle. How often do you actually use all the water? With GROHE Red you only take the hot water you need, saving precious water and time. In combination with the large GROHE Red boiler, which can replace a warm water outlet in the kitchen, the system saves even more water. The large GROHE Red boiler delivers the heated water for both kettle-hot water and also warm water for the sink mixer, instantly. No more wasted water while you wait for it to reach optimum temperature.

KETTLE-HOT WATER ON TAP

How many times a day do you fill and boil the kettle? From the first cup of tea in the morning to a late night pasta dinner, we boil up water countless times, often heating far more than we need. With GROHE Red you have water heated to 100 °C ready when you want it. It's convenient and saves water and time.

TECHNOLOGY THAT PUTS SAFETY FIRST

If there are children in your family, there can be few better reasons for banning the electric kettle for good. Unfortunately kettles continue to be the cause of many accidents in the kitchen. Tragically, the victims of these accidents are most often small children below the age of 5. It happens time and again: a child grabs a trailing flex or pulls a kettle of boiling water over themselves. It just doesn't bear thinking about. In the UK, over 360 young children suffer severe scalding every year. That's one child every day – and every child is one too many.

When you choose GROHE Red you can be sure of choosing safety first. GROHE Red has passed the SGS-TÜV test, the independent body that confirms that the applicable safety requirements and quality standards have been met.

CHILDLOCK

Safety is paramount in a family kitchen. That's why GROHE Red faucets are designed with a child lock that makes scalding practically impossible: for the boiling water to flow, you must first unlock with the upper push button before the lower push button can be used.

GROHE RED TITANIUM BOILER

All boilers in our GROHE Red collection are made from titanium. Unlike stainless steel and copper, two metals traditionally used for boilers, titanium is highly resistant to corrosion and limescale build-up – ensuring perfect performance over a lifetime. It also guarantees that your water is free of any metallic taste.

GROHE RED

GROHE Red boilers* are cost and energy efficient – their improved design and insulation mean they achieve an A rating for their efficiency.

L-Size boiler for 5.5 l of boiling water at once

M-Size boiler for 3 l of boiling water at once

OFF ON HOLIDAY

Going on holiday? Then simply switch the boiler to holiday mode, making sure any water is only heated to 60 °C for further energy savings.

* GROHE Red boiler M-Size: Energy efficiency class A, heat losses max. 14 Wh

GROHE Red boiler L-Size: Energy efficiency class A, heat losses max. 15,9 Wh

What is more, the titanium used to make the water tank means an incredibly durable boiler that won't corrode.

WATERSYSTEMS ACCESSORIES

Make the most of having delicious chilled, filtered water on tap with our range of GROHE Blue accessories. From replacement filters for all GROHE Blue faucets, to CO₂ cartridges for GROHE Blue chilled and sparkling,

plus our own range of branded GROHE water glasses and carafe, you'll find all you need to enjoy your seamless supply of cool, fresh drinking water in your home.

THE INDIVIDUAL CHOICE OF FILTRATION FOR PERFECT TASTE

Our high-performance filters apply a combination of filtration stages to remove even the smallest particles from tap water, while leaving behind all the important minerals that benefit your health and provide pure taste.

Tested and Certified by NSF International against NSF / ANSI Standard 42 for the reduction of chlorine, taste and odor.

Watch our video for more information about the exchange of GROHE Blue filters.

KITCHEN FAUCETS

At GROHE we understand that your kitchen is a reflection of you. It's more than just a space to cook and clean – it's where you express yourself, enjoy yourself and even stretch yourself. That's why we have created a range

of products that allow your inner home chef to shine, with professional-grade functionality that won't let you down, tailored features to help you perform better and intelligent design that reflects your personal taste.

GROHE KITCHEN FEATURES

GROHE SMARTCONTROL

SmartControl kitchen puts precise control at your fingertips. Instead of a lever you start and stop the water flow by pushing the button on the spray – great for those moments when you have your hands full as it can be operated just by your wrist or elbow. To control the flow just turn the valve, changing smoothly from an eco-flow to a powerful jet.

To adjust the water temperature, turn the valve at the body gently to the left or right. The pull-out spray head design gives you great flexibility, and with this feature available in two faucet designs and 8 attractive finishes, the perfect model for your kitchen scheme is at your fingertips, too.

Available on following lines:
SmartControl (Essence, Zedra)

GROHE EASYTOUCH

Kitchens are hands-on places, where multi-tasking is a must. Why not make life easier for yourself with a GROHE touch-activated faucet?

With GROHE's innovative EasyTouch faucets sticky fingers won't slow you down and cross-contamination is a thing of the past. Hidden GROHE technology lets you start and stop the flow of water with a single tap of your arm, wrist or the back of your hand, anywhere on the spout. Leave your hands free and keep your faucet sparkling clean. Change the way you control your kitchen with just a single touch.

Available on following line:
Zedra, Minta

GROHE FOOT CONTROL

For kitchens where time is of the essence and convenience is a must, why not go hands-free? GROHE's Foot Control faucets can be turned On and Off with a gentle tap of your foot on the base unit, where a capacitive sensor is placed, leaving your hands free and your faucet spotless at all times. Three of our most popular faucets come with this innovative Foot Control technology, or you can retro-fit the feature to any GROHE pull-out kitchen faucet. To say goodbye to germs, mess and hassle, simply tap your feet!

Available on following lines:
Essence, Eurodisc Cosmopolitan, Concetto, Eurostyle Cosmopolitan, Eurosmart Cosmopolitan, Eurosmart

Except for low pressure variants, SmartControl and GROHE EasyTouch faucets.

GROHE PREWINDOW

Having your sink area in front of a window provides you with a view to soothe and inspire you while preparing food or washing dishes. With the GROHE PreWindow solution you can open and clean your window easily. Just lift up the faucet and lay it flat on the surface – job done.

Available on following lines:
Eurodisc Cosmopolitan, Concetto, Eurostyle Cosmopolitan, Eurosmart Cosmopolitan

GROHE KITCHEN FEATURES

GROHE OPEN WATER HEATER

In kitchens that are a long way from the central hot water supply, small boilers directly under the sink are really common. In these specific cases a special kitchen mixer is required. Hot water can run immediately and this solution offers you the perfect flow in combination with open water heaters.

Available on following lines:
Eurodisc Cosmopolitan, Concetto, Eurostyle Cosmopolitan,
Eurosmart Cosmopolitan, Minta

GROHE SHUT-OFF VALVE

This small shut-off at the base of your kitchen mixer turns off the water supply for the dishwasher or washing machine for maximum convenience day-to-day. One quick turn and the water is safely shut-off.

Available on following lines:

GROHE ZERO AND COOLTOUCH

Lead and nickel free inner water ways – no contact of water with lead and nickel due to use of harmless material within the faucet.

No scalding on hot surfaces thanks to 100 % GROHE CoolTouch.

Available on following lines:
SmartControl, Zedra, Eurodisc Cosmopolitan, Concetto, Eurostyle
Cosmopolitan, Eurosmart Cosmopolitan, Eurosmart, Baulines

GROHE FINISHES

STAINLESS STEEL

Put sleek, strong, stainless steel at the heart of your kitchen with a GROHE kitchen sink. Our above-standard grade stainless steel offers great performance, crisp angles and generous capacity in a timeless, hardwearing material.

PVD

Made-to-last surfaces ranging from precious matt to shiny like a diamond. The special recipe to success lies in our long-lasting surface quality. GROHE uses state-of-the-art technology to deliver exceptional quality finishes. The physical vapour deposition (PVD) process ensures that the surface composition is three-times harder, delivering glistening gold or sophisticated stainless steel finishes. As well as being harder, the surface is also ten times more scratch resistant, so it can be cherished for a lifetime.

GROHE SMARTCONTROL

Juggling kitchen tasks? Feel like you never have enough hands? The new SmartControl feature is here to make life easier. Instead of grappling with a lever it lets you switch the water flow on and off with just the touch of a button – meaning you even use your elbow or wrist. Turn the button to control volume with ease, from an eco-flow to a powerful jet. To adjust the

water temperature, turn the valve at the body gently to the left or right. The pull-out mousseur head gives you great flexibility for rinsing the sink or prepping veg. Available on two faucet designs and in 8 desirable finishes, this innovation creates a sleek and streamlined silhouette and puts precise control at your fingertips.

KITCHEN SINKS

Add up how much time you spend at your kitchen sink. Filling pots, preparing veg, washing up after a big meal. It's a place you will stop at countless times each day, so why not choose a sink that exceeds your needs in terms of quality, design and features?

GROHE sinks have been designed to fit every type of kitchen scheme, with a range of innovative, modern designs perfect for your space. You can choose between a sleek, hardwearing stainless steel model or a super-durable composite available in two contemporary colors. You will find compact models with integrated drainers, large double sinks for when you need to spread out, and chic built-in sinks that fit flush to your worktop.

With features like the GROHE FastFixation system and reversible designs as standard, you can have your new GROHE sink installed with no fuss or hassle. We are also confident that you will love the special features on offer, like the automatic waste that means never plunging your hand into dirty water again. Thanks to GROHE Whisper technology you can even be sure that this will be your quietest sink ever – for composite sinks the material itself reduces the noise from water flow and for GROHE stainless steel sinks special integrated insulation achieves the same effect. With a sink from GROHE you'll notice the difference, making every time you use your sink less of a chore.

GROHE STAINLESS STEEL SINKS

Put sleek, strong, stainless steel at the heart of your kitchen with a GROHE kitchen sink. Our above-standard grade stainless steel offers great performance, crisp angles, and generous capacity in a timeless, hardwearing material.

GROHE COMPOSITE SINKS

For those who prefer darker tones: our new sinks in contemporary Granite Black and Granite Grey are made from durable composite that is not only scratch-proof but also stain-resistant and easy to clean.

FEEL THE BENEFITS INNOVATIVE FEATURES, FINISHES AND FUNCTIONS

We can't claim to make washing up a joy, but thanks to the smart, useful features of every GROHE sink, we certainly believe that we can make your sink somewhere you are happy to spend some time. With a GROHE sink, cleaning is easier, draining the bowl can be done remotely, and even the sound of the water running is minimized. Just select your ideal size and style – installation is effortless and the benefits speak for themselves.

Automatic control

For even more comfort you can upgrade your waste set from manual to automatic control. Fits to all kitchen sinks series.

Pre-punched faucet holes

Many models come with pre-punched faucet holes, meaning no additional tools are required and some sinks are reversible and can be installed as either left- or right-handed option.

Overflow

The overflow, available on all GROHE sinks, avoids any spillage of water in case the faucets are inadvertently left open. The perimetric solution available on some models improves the look, thanks to its squared-out and essential shape.

Water drainage

Drainage from the bowl's base and drainers is an important feature, always well cared for on GROHE sinks. In the squared-out, flat-bottomed sinks, good drainage is ensured by the elegant diamond-shaped creases that make the water flow away more easily.

Spacious bowls

All GROHE kitchen sinks feature spacious bowls meaning you have lots of room to maneuver and enough space for washing large pots with ease. Thanks to our innovative manufacturing technique, all of our stainless steel sinks offer a generous depth of min. 16 cm while the innovative computerized casting technique allows our composite sinks a generous depth of even at least 20 cm.

Waste fitting with remote control

GROHE sinks are equipped with a 3.5" waste fitting and practical strainer plug that prevents solids and leftovers from flowing away with the waste water. The steel cap available on some models adds elegance to the bowl and hides any residue collected in the underlying basket.

Siphon included

For a quick and hassle-free installation each sink comes with an under-sink siphon complementing the scope of delivery and guaranteeing an ALL IN ONE solution.

GROHE STAINLESS STEEL SINKS INNOVATIVE FEATURES, FINISHES AND MOUNTING TYPES

Customize your kitchen space by choosing the perfect GROHE sink for you. Our K-series range of stainless steel sinks covers every size, configuration and price point, so you're sure to find your perfect fit. The range includes 1, 1.5 or 2 bowl options. Various mounting types from built-in to undermount are available for your individual taste. Make it your very own central kitchen hub with our accessories – perfectly matching our sinks for your ultimate comfort.

We are also confident that you will love the special features on offer, from the noise-reducing GROHE Whisper insulation to the automatic waste that means never plunging your hand into dirty water again. With a sink from GROHE you'll notice the difference, making every time you use your sink less of a chore.

FINISHES

AISI 304

On every sink model GROHE uses the AISI 304 stainless steel, exceeding the quality standard of the industry. Thanks to its high percentages of chrome and nickel it contains, AISI 304 steel gives a particularly bright finish and makes the products enduring against rust and corrosion.

GROHE satin finish

GROHE's brushing technique creates a stainless steel surface that is smoother and less porous than many other brands, making cleaning your sinks easier and significantly enhancing its durability.

MOUNTING TYPES

Top-mount

Traditional built-in with a vertical 8 mm edge.

Undermount

Sleek and contemporary, ideal for installation under the worktop.

Flat-edge

An original edge with an inclined 3 mm high profile, matching an extreme elegance with the ease of installation.

Flush-mount

The product is sunk 1 mm deep recess thus being perfectly flush with the worktop. As alternative, it can be installed on the worktop as well.

INNOVATIVE FEATURES

GROHE StarLight

All GROHE sinks use stainless steel graded above the industry average, so you can be confident of their quality and durability. Our innovative brushing technique means that the sparkling steel surface is ultra smooth for easier cleaning.

GROHE FastFixation

Install your sink swiftly and easily thanks to the GROHE FastFixation system (kit supplied). With two pre-punched faucet holes most of our sinks are easily reversible, giving you the flexibility you need for any design scheme.

GROHE Whisper

Shhh! A special insulation on the underside of the sink means that noise from running water and handling pots and pans is reduced to a minimum.

Water drainage

Drainage from the bowl's base and drainers is an important feature, always well cared for on GROHE sinks. In the squared-out, flat-bottomed sinks, good drainage is ensured by the elegant diamond-shaped creases that make the water flow away more easily.

Waste fitting for easy handling

Thanks to the automatic waste your hands will stay clean and dry. For even more convenience, upgrade your sink with the stylish push-excenter.

GROHE push excenter

Upgrade your sink with the stylish GROHE push excenter 40 986 SDO (fits to all kitchen sinks).

GROHE K1000 SERIES

A superior sink designed for the demands of contemporary kitchens, the K1000 features a welded design with a diamond-shaped bottom, as well as a generous draining area. Its

architectural style is matched by useful features like an included siphon and automatic waste fitting. It can be flush-mounted or top-mounted.

4 DIFFERENT MODELS

31 574 SD1 | K700U Stainless steel kitchen sink with 1 bowl

31 575 SD1 | K700U Stainless steel kitchen sink with 1.5 bowls

31 576 SD1 | K700U Stainless steel kitchen sink with 1.5 bowls

31 577 SD1 | K700U Stainless steel kitchen sink with 1.5 bowls

Also available as bundle:

31 573 SD1 | K500 Stainless steel kitchen sink with 1 bowl and reversible drainer (31 571 SD1) and Minta sink mixer (32 168 000)

MOUNTING TYPES

Top-mount
Traditional built-in with a vertical 8 mm edge.

Undermount
Sleek and contemporary, ideal for installation under the worktop.

Flush-mount
The product is sunk 1 mm deep recess thus being perfectly flush with the worktop. As alternative, it can be installed on the worktop as well.

INNOVATIVE FEATURES

GROHE StarLight
All GROHE sinks use stainless steel graded above the industry average, so you can be confident of their quality and durability. Our innovative brushing technique means that the sparkling steel surface is ultra smooth for easier cleaning.

GROHE FastFixation
Install your sink swiftly and easily thanks to the GROHE FastFixation system (kit supplied). With two pre-punched faucet holes most of our sinks are easily reversible, giving you the flexibility you need for any design scheme.

GROHE Whisper
Shhhh! A special insulation on the underside of the sink means that noise from running water and handling pots and pans is reduced to a minimum.

GROHE push excenter
Upgrade your sink with the stylish GROHE push excenter 40 986 SD0 (fits to all kitchen sinks).

GROHE K700U SERIES AVAILABLE IN:

GROHE K700 SERIES

Perfect for modern, minimalist kitchens, the K700 cubistic sink offers a deeper, larger bowl with radiant edges and a diamond-shaped bottom. Ideal for larger kitchens, the sink is available for standard built-in as well as undermount installation or flush-mounting and three different sizes.

GROHE COMPOSITE SINKS INNOVATIVE FEATURES, FINISHES AND MOUNTING TYPES

Customize your kitchen space by choosing the ideal GROHE sink for you. Our K-series range of composite sinks covers every size, configuration and price point, so you're sure to find your perfect fit. The range includes round and square models in two different colors – Granite Black and Granite Grey. Select from 1, 1.5 or 2 bowl models, with or without and integrated drainer, with dimensions suited to kitchens from the spacious to the compact. Plus choose between a neat top-mounted model or a sleek, minimalist under-mounted version which sits under the worktop.

FINISHES

AT0 | Granite Grey

QUARTZ COMPOSITE

Your sink can cope with the daily demands of even the busiest kitchen thanks to our innovative composite material. Using 76 % quartz – the hardest part of granite – mixed with acrylic resin, GROHE composite sinks are the toughest around. This hardened composite material is resistant to scratches, dents, stains, cracks and heat up to 180 °C. The smooth surface is easy to clean and 100 % food safe for total peace of mind.

AP0 | Granite Black

Each GROHE composite sink is produced using a computerized polymerization casting process which guarantees a seamless finish and total uniformity of color throughout. What's more, the composite won't fade in UV light, meaning its certain to stay looking as good as the day you bought it.

MOUNTING TYPES

Top-mount
A traditional built-in look with a vertical 8 mm edge. Installation is with clips (except for models 31 653, 31 654, 31 655 and 31 648 – silicone only).

Undermount
Installed under the worktop for a sleek, contemporary look.

INNOVATIVE FEATURES

GROHE FastFixation
Install your sink swiftly and easily thanks to the GROHE FastFixation system (kit supplied). With two pre-punched faucet holes most of our sinks are easily reversible, giving you the flexibility you need for any design scheme.

GROHE Whisper
Shhh! GROHE sinks reduce noise from running water and handling pots to a minimum, thanks to the dense mix of quartz and acrylic in our composite sinks.

Heat resistant up to 180 °C
Never hesitate to put down a hot pot again – GROHE composite sinks are heat resistant up to 180 °C.

Stain resistant
Because your sink has to be practical as well as beautiful, GROHE composite sinks are stain resistant for long-lasting good looks.

100 % safe
Enjoy total confidence in using your kitchen your way – GROHE composite sinks are 100 % food safe, making prep easy and hygienic.

Non fading in UV-light
Let the sunshine in! Our composite material won't fade in UV-light, keeping your sink looking pristine and color-true.

Easy to clean
Your composite sink is easy to keep clean so you will be able to enjoy its flawless finish for years to come.

Spacious bowls
All GROHE composite sinks feature seamless bowls with a generous depth of at least 20 cm maximizing space for washing large pots and filling vases with ease.

KITCHEN ACCESSORIES

Add the final finishing touches to any kitchen scheme with GROHE kitchen accessories, designed to coordinate seamlessly with all GROHE sinks and faucets. A useful soap dispenser, mounted on the edge of the sink, keeps the worktop free of clutter, while a neat pop-up remote-control waste set keeps your hands out of the dirty water – both these details come in colors corresponding to GROHE sinks and faucets for complete visual unity.

GROHE SOAP DISPENSER

The perfect way to add the finishing touch to your kitchen is with one of GROHE's range of modern and elegant soap dispensers. Practical and durable,

they are built with classic GROHE workmanship and designed to match all of GROHE's kitchen faucets.

GROHE KITCHEN SOLUTIONS

PRODUCT OVERVIEW

Creating a kitchen where every element works in harmony – with both your lifestyle and your own personal taste – has never been easier. GROHE's range for the kitchen has everything covered, from a versatile, practical collection of sinks and faucets, to those hidden solutions like under-sink waste management systems and even the waste set you pick for your bowl. Swap a standard faucet for a GROHE

Blue watersystem, or add a GROHE Red for kettle-hot water – you'll find all the choice of function you could need without any compromise on aesthetic clarity. With a range of appealing colors and finishes, and elements that have all been carefully designed to work together in one seamless scheme, GROHE makes it easy to coordinate every design detail into a kitchen tailored completely around you.
