MADE TO MATCH IN FORM AND FUNCTION. **GROHE CERAMICS**

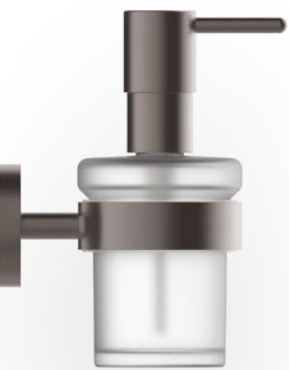

Harmony is at the heart of any successful design, that delicate balance where every element works towards a seamless whole. That is why we developed GROHE Perfect Match. Our dedicated design team reviewed hundreds of combinations to ensure the Perfect Match between your basin and faucet. With Perfect Match you can be assured that your choices will complement each other to create a satisfying aesthetic form.

As for function, those same combinations have been rigorously tested against three criteria – ease of installation, splash-free operation and user comfort - to ensure superior performance too, meaning that finding your Perfect Match couldn't be easier.

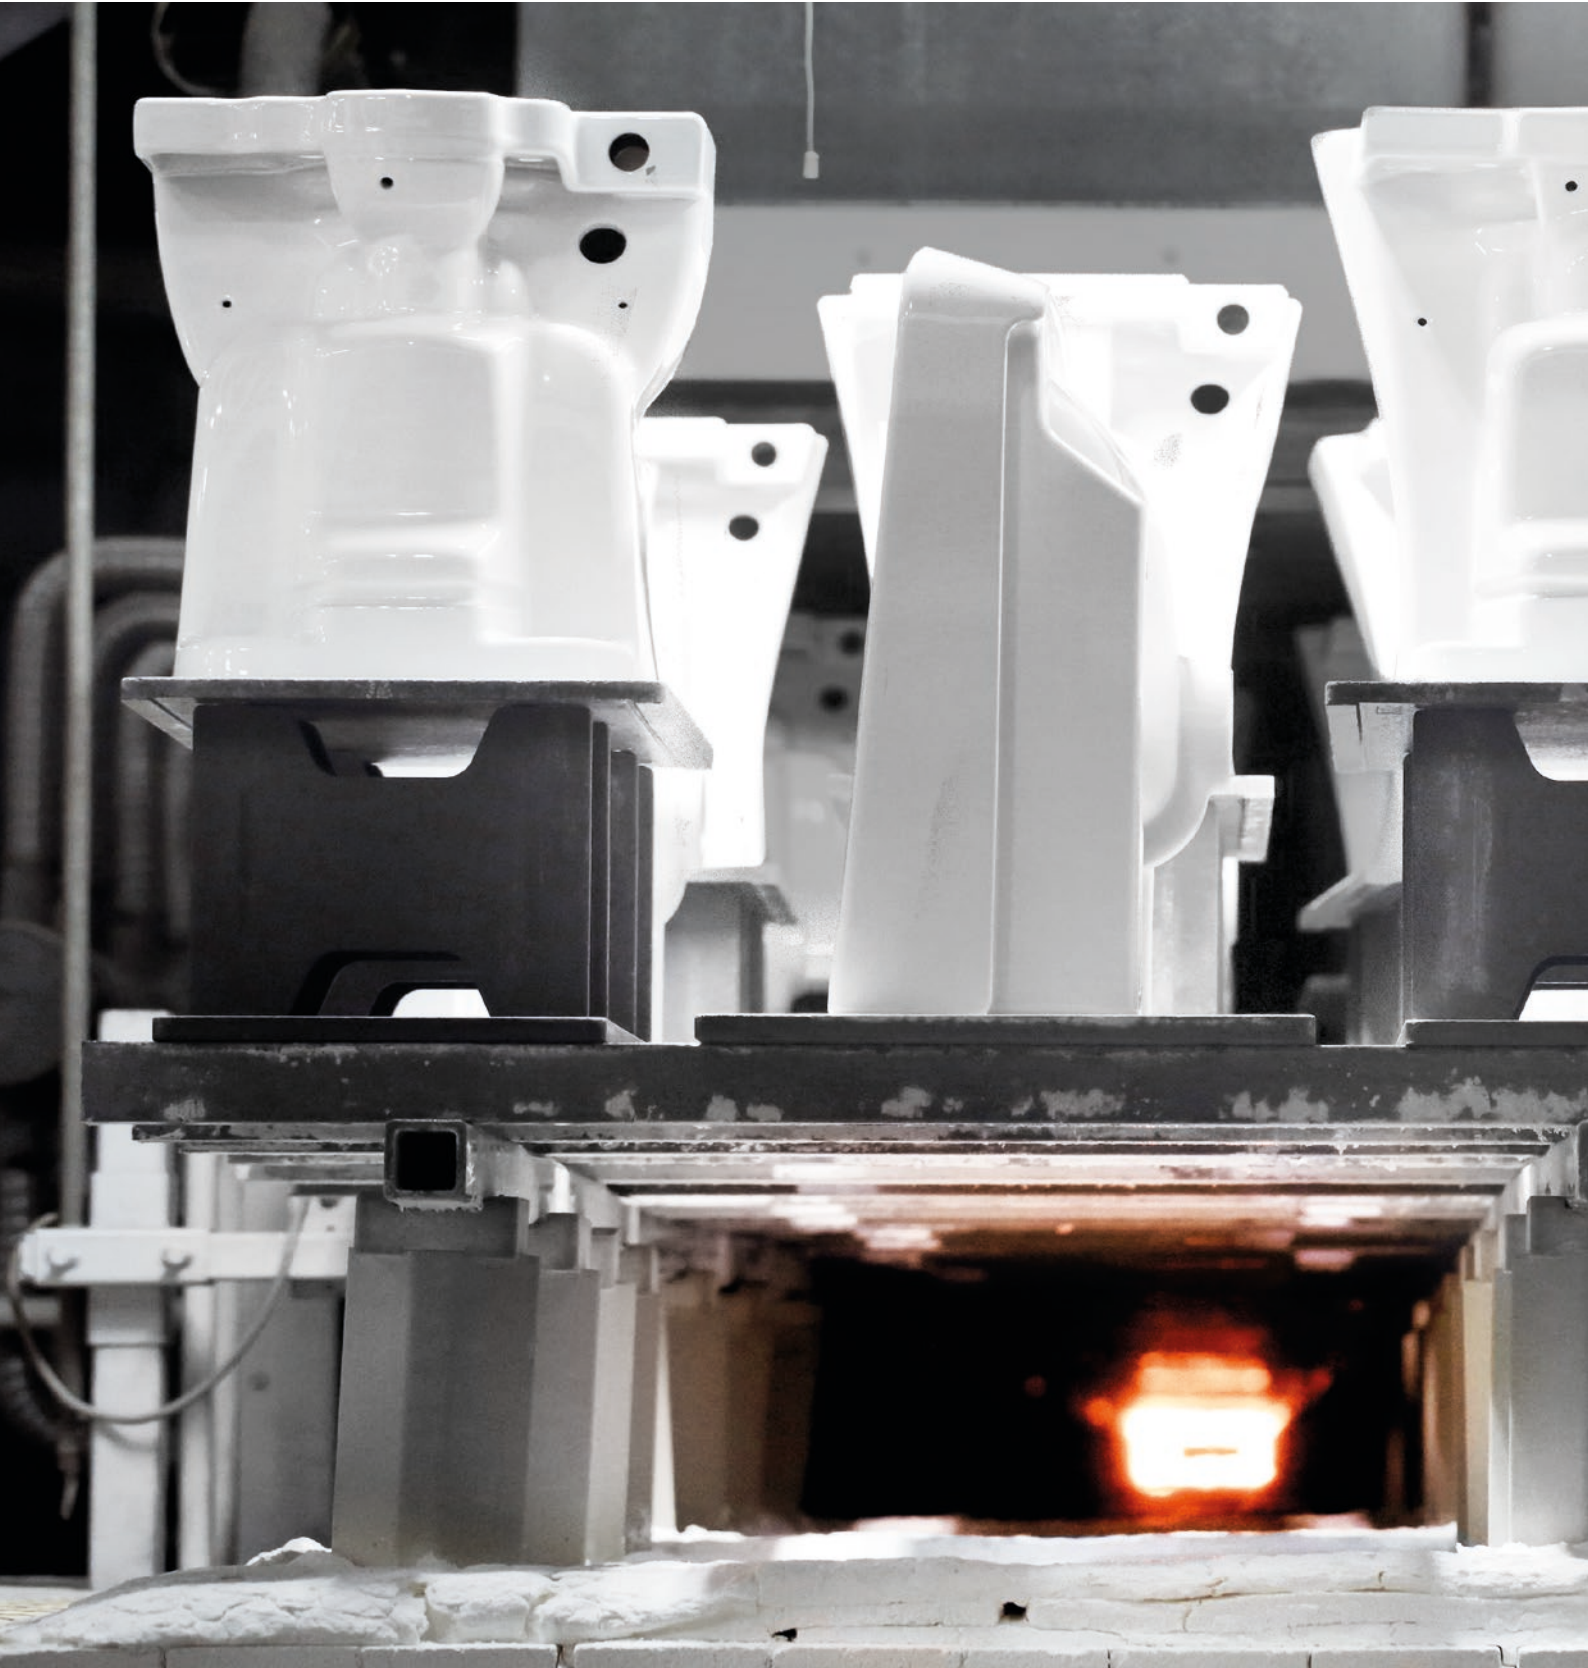

“We wanted to establish a natural relationship between two objects.”
